

Imagine: Having a Global Impact

Christ Church Santa Fe: Missions Newsletter May 2015

International Church Planting: Cuba

(Leadership: Allen Thompson; Committee Contact Brad Thompson)

The International Church Planting Center is working to support Iglesia Evangelica "Los Pinos Nuevos" (LPN), a Cuban group of churches, to establish ten church multiplication centers (churches) in ten cities of over 100,000 population and purchase ten small farms. These multiplication centers will each include a base, a lead pastor, multiple house churches/cell groups and a small farm for

food production. Leaders of these evangelistic centers will develop networks with existing IPN churches to focus on evangelism, discipleship and mercy ministries in a city-wide endeavor to reach thousands of people.

Since Christian literature cannot be imported it is imperative that the local denominational "Biblical Press" be well equipped.

Two new Toshiba digital printers were purchased this year. This key investment is disseminating the

gospel Cuba-wide.
